

The 31 Most Beautiful Skyscrapers in the World

By Hannah Huber and Elizabeth Stamp

Central Park Tower (New York City)

The tallest residential skyscraper in the world, Central Park Tower rises 1,550 feet above midtown Manhattan. Adrian Smith + Gordon Gill Architecture designed the Billionaire's Row building, which was completed in 2021 and contains 179 residences with interiors designed by Rottet Studio. The building is also home to the city's highest ballroom and private restaurant on the 100th floor and a Lalique-designed lobby with a 2,000-piece crystal chandelier.
