NOVEMBER 6, 2023

More than architecture and Modern Interior Design, this company is internationally recognized, with world-class design experts in Houston, Los Angeles, New York, San Francisco and Shanghai. Rottet Studio faces the design world in a very interesting way and its purpose as a design firm is to elevate the way people live, work and travel. How? Creating curated interiors with the identity of their clients.

With an extensive portfolio of corporate, hospitality, residential, and maritime projects for leading global companies and brands, Rottet Studio is a leader in the architecture and design industry, creating stunning, functional and timeless places that promote a better way of life.

Residential Project in Manhattan, New York | Modern Interior Design

The Central Park Tower is the tallest residential tower in the world, located in Manhattan, New York. With a height of 1,382 feet, it offers breathtaking views of the city and Central Park. Residence 92E is one of the tower's most luxurious, with modern interior design by Rottet Studio.

The residence has 10,300 square feet of space, spread over five bedrooms, six bathrooms and a guest toilet. The layout is open and fluid, with large windows that allow natural light to flood the spaces. The finishes are high quality, with marble, wood and leather. The design of the residence is inspired by nature. Neutral tones and natural materials such as marble, wood and leather create a cozy and luxurious atmosphere.

Lighting is an important element of the design. The large windows allow natural light to flood the spaces. Artificial lighting is used to create a cozy atmosphere at night.

Residential Project in Bal Harbour Miami | Modern Interior Design

Rottet Studio's Residential Project in Bal Harbour, Miami, is a testament to their exceptional design prowess. This stunning endeavor seamlessly combines modern aesthetics with the vibrant Miami lifestyle, creating a haven of luxury and sophistication.

With meticulous attention to detail, the project reflects the studio's commitment to crafting spaces that are not only visually captivating but also highly functional. Each corner of this residential masterpiece speaks of the studio's dedication to redefining the way we experience and live in our homes, ultimately setting a new standard for contemporary living in the heart of Miami's Bal Harbour.

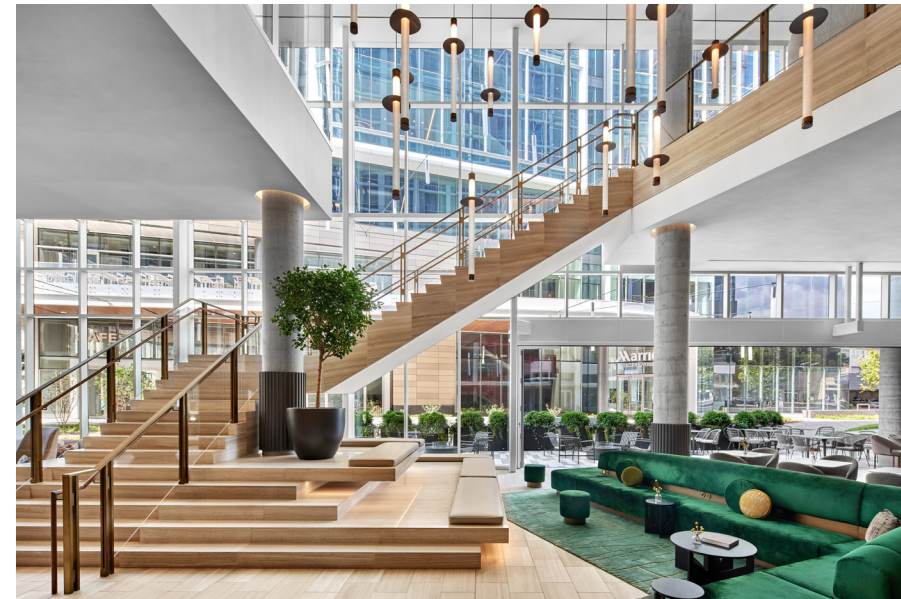

Residential Project in Santa Mónica, California | Modern Interior Design

Rottet Studio was commissioned to design a house in Santa Monica, California. The house is located on an oceanfront plot with breathtaking views of the California coastline. The design of the house is inspired by the Mediterranean style, with elements of classical architecture.

The exterior of the house is made of stone and brick, with wooden details. The interior of the house is spacious and bright, with large windows that allow natural light to flood the spaces. The finishes are of high quality, with marble, wood and leather. Lighting is an important element of the design, with a combination of natural and artificial light.

Marriott Bethesda Downtown, Hospitality Project in Bethesda, Maryland | Modern Interior Design

Rottet Studio was responsible for the modern interior design of the Marriott Bethesda Downtown, a 245-room hotel located in Bethesda, Maryland. The hotel is Marriott International's 8,000th hotel, and Rottet Studio's design was created to reflect the company's legacy and history.

The hotel's design is sophisticated and elegant, with neutral tones and natural materials such as marble and wood.

Residential Project in São Francisco, California | Modern Interior Design

The new building located in San Francisco, California, called The 8, has 322 residential units, as well as a 162-room hotel, a restaurant, a spa and a gym.

Rottet Studio's design for The 8 is sophisticated and modern, with a touch of glamor. Neutral tones and natural materials are used to create a cozy and elegant environment. The layout is open and fluid, with large windows that allow natural light to flood the spaces.

There is nothing like this brand-new condominium complex on the West Coast. It will be among the first residential structures in the city to be certified LEED Gold, and it has solid Roman travertine from Italy with breathtaking views of the Bay Bridge.

Residential Project in São Francisco, California | Modern Interior Design

The Belmond Cap Juluca Spa by Guerlain, designed by Rottet Studio, is a luxury spa located at the Belmond Cap Juluca Hotel in Anguilla. The spa is a collaboration between Rottet Studio and Guerlain, a French luxury cosmetics brand.

This design has a peaceful central fountain and a welcoming outdoor patio with colorful mosaics of emerald. Every treatment room has stunning views of the ocean, and the furnishings combine moderate hues and sophisticated mahogany with cane accents.

The modern interior design of this spa offers a variety of beauty and wellness treatments, including massages, facials and body treatments. The spa also has a swimming pool, a hammam and a sauna.
